

UNIQUE VALUE PROPOSITION

Strengthening Partnerships with AgriCord

Unlocking Added Value with the Alliance

With **small-holder farmers at its heart**, AgriCord's essence is in building caring farmer partnerships, by uniting agricultural agencies, farmers' cooperatives, and producer organizations. As mediators between financial and implementing partners, we promote coordination and amplify the strength of our **farmer partnerships**. Join us in nurturing collaborations that empower **farming communities**, promote prosperity, foster sustainability, and create an inclusive, prosperous future.

VISION

The vision of AgriCord is to foster the economic viability of farming activities, aimed at **improving the livelihood conditions of farmers, their families and the rural communities they work** and live in and strengthening the contribution of the farming community – through strong farmer organisations – to tackling the global and local challenges.

MISSION

The mission of AgriCord is to promote and help **to build other farmer organisations and cooperatives of family farmers through peer-to-peer approach**, in the long term and in a structural way, to organise family farmers in an effective, efficient, inclusive and democratic manner to spur their development.

FORI — Farmer-led Research and Innovation

The main goal of the Farmer-led Research and Innovation (FO-led R&I or FO-RI) programme is to **secure a transition towards resilient, productive and sustainable agroecological agri-food systems** through farmer-led innovation and research.

The AgriCord Alliance is implementing this action with the financial support of the European Commission (EC) and Organisation of African, Caribbean and Pacific States (OACPS).
