

www.agro-info.net provides information on

farmers' organisations in developing countries and on their activities.

Agro-info.net is operational since 2003, and is constantly updated by farmers' organisations and by agri-agencies¹. The database currently contains information on more than 700 farmers' organisations, on more than 1700 projects, in more than 100 (mainly developing) countries.

One important aim of agro-info.net is to increase the *visibility of farmers' organisations*, and to contribute to the *transparency of development aid*. More than 95% of all information on agro-info.net is *open* information. Project information (narrative and financial) can be followed from start to finish, as well as the missions performed, the funding involved and the organisations participating.

Searching in Agro-info.net and exporting data to Excel is easy.

The left hand column allows you to scroll across the modules

In most screens, the "export" button in the header allows to export your selection to Excel

In most screens, the right hand column offers criteria for making a selection. Click **find** to confirm

The screenshot shows the Agro-info.net interface. On the left, a vertical navigation menu lists various modules: Partner Sites, HOME, Countries, Organisations, Persons, Programmes, Projects, Missions, Contracts, Vacancies, Specialisms, Documents, News, Events, and Images. The main content area displays a list of 1474 projects. The table has columns for 'executor', 'year_range', 'country', and 'status'. Several project entries are visible, each with a title and a brief description. On the right side, there is a search and filter panel with dropdown menus for 'region', 'country', 'filter language', 'specialism', 'program categories', 'Programmes', 'financer', 'executor', 'backdonor', 'backdonor contract', 'year', 'status', and 'text'. A 'find' button is located at the bottom of this panel. Annotations with arrows point to the left menu, the 'export' button in the project list header, and the search/filter panel.

Click on a project title and go to the project record

¹ Agri-agencies are the development agencies of the farmers' organisations. Agro-info.net has been developed and is supported by Agriterria (agri-agency from the Netherlands).
