

"4 parts" In the current *practices* of farmers' organisations and agri-agencies, we observe 4 *complementary* perspectives, all relevant for the *impact* of support to farmers' organisations and of the work of farmers' organisations themselves.

		1	2	3	4	
1	perspective	outputs of project activities, incl. outreach	competences of the FO (deliverables)	farmers' incomes, household livelihood	impact at regional, thematic or programme level	
2	narrative reporting	Agro-Info.Net		specific research and reporting	evaluations (every 3-4 years)	
3	in charge	implementing FO supporting AA		FO supporting AA	external evaluators FO and AA → TOR	
4	cross-cutting concerns	Agro-Info.Net				
5	financing	within regular project budgets		complementary budgets	complementary budgets	
6	financial reporting	FO annual accounts				
7	not project related		profiling by FOs		theory of change about the role of FOs	
8	external communication	stories for Evidence of Impact (including representativity)				
9		x	x	x	assessment in reports/workshops (including the attribution issue)	
10	consolidated presentations	by FO by RFO or region by backdonor by component by ...				mid-term review of performance (2010, 2014)
